

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555

July 22, 1994

Mr. David A. Lochbaum  
80 Tuttle Road  
Watchung, New Jersey 07060

Dear Mr. Lochbaum:

I want to thank you for meeting with me on July 8, 1994. I appreciated the opportunity to hear personally your views on both the technical nature of your concerns and on the NRC staff's safety review of your concerns to date.

I realize that your continued followup on this issue has been personally demanding and frustrating. The insights gained by the staff in review of your concerns at Susquehanna have solidified the need to take a broader generic look at fuel pool cooling issues. I believe that your continued personal involvement will result in a better understanding of the issues and in improved safety as the staff continues their review.

The role of individuals such as you in ensuring the continued safe operation of nuclear power plants cannot be underestimated. Thank you for your personal commitment and service to the country.

Sincerely,

Ivan Selin

*I'm sending Mr. P... the same work*
